Beverly, MA 01915

RE: Safety Data Sheet requests

Medicinal Genomics has produced Safety Data Sheets for most of our reagents and kits. Product family SDS documents are available for download store.medicinalgenomics.com.

However, Medicinal Genomics products are not considered to be or to contain any hazardous chemicals based on evaluations made by our company under the OSHA Hazardous Communication Standard, 29 CFR 1920.1200.

Per OSHA guidance, customers of Medicinal Genomics are able to use this letter if a verbal or other assurance is not acceptable.

Thank you,

Timothy Olcott
Vice President, Operations
